

Fertilgold® DOUBLE PLAY®

INSTRUCTIONS

- It is important when using FERTILGOLD® DOUBLE PLAY® as a protective or curative fungicide and nematocide that material be incorporated into the soil. This can be accomplished as a soil drench, mechanical incorporation or as an infurrow application watered in.
- The higher rates should be used on heavy soils, in fields with a history of disease problems, or when weather conditions are expected to be favorable for rapid disease growth or nematode activity.
- Determine compatibility with other additives by performing a jar test using appropriate quantities of each material and water.
- As this product functions mostly on contact, the more complete the coverage, the better the product performs.
- For best results, apply in early morning or late in the afternoon.
- Do not apply in rainy or windy conditions or on water-stressed plants.
- Use lower rates for light infestations, moderate rates for moderate infestations, and higher rates for heavy infestations.
- Apply spray solution in properly maintained and calibrated equipment capable of delivering the desired volumes.

STORAGE AND HANDLING

Store in a cool, dry, well-ventilated area, away from incompatible materials and products. To protect eyes and skin from contact with this product, applicators and other handlers must wear a long-sleeved shirt, long pants, shoes and socks, protective eyewear, and chemical resistant gloves made of neoprene, nitrile, or natural rubber. Avoid breathing vapors, aerosols, or mists. Use with adequate ventilation. Do not take internally. Keep the container tightly closed when not in use. Wash thoroughly with soap and water after handling this product.

This product has not been registered by the U.S. Environmental Protection Agency. Bio Huma Netics®, Inc. represents that this product is NOP compliant and qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

DISPOSAL CONSIDERATIONS

If this product is disposed of as shipped, it does not meet the criteria of a hazardous waste as defined under 40 CFR 261, in that it does not exhibit the characteristics of a hazardous waste of Subpart C, nor is it listed as a hazardous waste under Subpart D due to toxicity. As a non-hazardous liquid waste, it should be disposed of in accordance with all local, state, and federal regulations. Consult state or local officials for proper disposal method.

ACTIVE INGREDIENTS

Thyme Oil.....	3.5%
Inert Ingredients ⁺	96.5%
Total Ingredients.....	100%

⁺Contains water, molasses, glycerin

GENERAL INFORMATION

DOUBLE PLAY® is a protective and curative soil fungicide and nematocide recommended for control of soil-borne diseases and plant parasitic nematodes. For use on all plants. Best results are achieved when used in a preventive program following recommended rates and application directions. DOUBLE PLAY® controls harmful soil-borne diseases and plant parasitic nematodes through contact activities. Carefully read, understand, and follow these label directions.

SHAKE WELL BEFORE USE.

This product will separate.

Constant tank agitation is required to ensure a homogeneous spray mixture.

DOUBLE PLAY® may be applied at any time up to and including the day of harvest.

Repeat application every 5 to 7 days to maintain the desired level of control.

APPLICATION

METHOD OF APPLICATION	RATE PER ACRE
Soil banded or injected, through drip tape or microsprinklers	up to 1 gallon
Soil broadcast spray incorporated, flood, or furrow irrigated	up to 2 gallons

pH: 5.0 - 6.0

9.12 lb/gal @ 68°F
1.09 kg/L @ 20°C

SAFETY

KEEP OUT OF REACH OF CHILDREN

FIRST AID MEASURES:

INHALATION: If inhaled, immediately move to fresh air. If not breathing, give artificial respiration. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; use the Holger Nielsen method (back pressure-arm lift) or proper respiratory device. If breathing is difficult, give oxygen. Call a physician.

EYE CONTACT: In case of contact, remove contact lenses, if worn, and immediately flush eyes with plenty of clean running water for at least 15 minutes. Get medical attention as soon as possible.

SKIN CONTACT: In case of contact, immediately flush skin with plenty of clean running water for at least 15 minutes, while removing contaminated clothing and shoes. If burn or irritation occurs, call a physician.

INGESTION: If swallowed, DO NOT induce vomiting. Get medical attention immediately. If victim is fully conscious, give plenty of water to drink. Never give anything by mouth to an unconscious person.

NOTE TO PHYSICIANS: Aspiration hazard. May cause lung injury if ingested while swallowing or vomiting. Stomach or esophageal irritation, possibly severe, may occur. Consider careful endoscopy or gastric lavage with an endotracheal tube. Treat exposure symptomatically.

A hazy to opaque, brownish, slightly acidic liquid having a unique characteristic odor. Exposure to this product's mists or liquid may cause severe irritation to the eyes and may cause irritation to the skin and respiratory tract. This product can be toxic upon ingestion. It may cause an allergic reaction to sensitive persons.

CLASSIFICATION: HAZARD CATEGORY 5—MAY BE HARMFUL IF SWALLOWED

SIGNAL WORD: WARNING

HAZARD STATEMENT: H303—WARNING—May be harmful if swallowed.

PRECAUTIONARY STATEMENT: P312 Call a poison center/doctor/physician if you feel unwell.
