INHALATION:	If inhaled, immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Call a physician.					
EYE CONTACT	In case of contact, immediately flush eyes with plenty of clean running water for at least 15 minutes, lifting the upper and lower lids occasionally. Remove contact lenses, if worn. Get medical attention.					
SKIN CONTACT	In case of contact, flush skin with plenty of clean running water. Remove contaminated clothing and shoes and was before reuse. If irritation occurs and persists, get medical attention.					
INGESTION:	If large quantities of this product are swallowed, call a physician immediately. DO NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.					
NOTE TO PHYSICIANS:	Sodium Molybdate, Dihydrate solutions have a relatively low oral toxicity but may be irritating to the eyes, skin and mucous membranes. If ingested consideration should be given to careful endoscopy as stomach or esophageal irritation may occur. Careful gastric lavage with an endotracheal tube in place should be considered. Treat exposure symptomatically.
